

TapNGo for Manufacturing

Frictionless access to shared workstations with just a tap of a badge:

86% of shop floor workers share passwords

63% of manufacturers use insecure remote access methods like RDP

70% of manufacturers have internet-connected OT systems

Key Benefits:

- No more forgotten passwords or hassle of constant logins
- Individual accountability with audit trails of user activity
- Auto-logout helps enforce security policies
- Seamless SSO to enterprise apps for each user
- Streamlined onboarding/offboarding of seasonal workers
- Reduces IT overhead for user lifecycle management

Metrics:

30% infrastructure cost savings

20% increase in productivity output

70% reduction in the onboarding time of new seasonal workers

Enterprise-wide SSO implementation

TapNGo allows manufacturing IT to:

- Tighten access with MFA
- Provide fast access to eliminate sharing
- Reduce technical burden of user management
- Manage identities at scale across 100+ apps
- Improve security posture while increasing efficiency
